III. MARKET UPDATE DURING THE YEAR

1. Macroeconomics

Impressive GDP growth

The GDP for the fourth quarter of 2024 is estimated to increase by 7.55% compared to the same period last year, only slightly lower than the fourth quarter of the years 2017 and 2018 during the period from 2011 to 2024, while maintaining the trend of each quarter being higher than the previous one and exceeding the target of 6.0-6.5% set by the National Assembly. The services sector is the main contributor to the economy's growth, increasing by 8.21% compared to the same period last year and contributing 51.11%.

Overall, in the year 2024, GDP increased by 7.09%, which is only lower than the growth rates of the years 2018, 2019, and 2022 within the period from 2011 to 2024. In the increase of the total value added of the entire the economy, the agricultural, forestry, and fishery sector grew by 3.27%, contributing 5.37%; the industrial and construction sector increased by 8.24%, contributing 45.17%; and the services sector rose by 7.38%, contributing 49.46%.

Inflation remains below threshold and credit growth surges

The CPI for the fourth quarter of 2024 increased by 2.87% year-on-year, primarily driven by rising prices of rice (increase 15.93% YoY), electricity (increase 7.68% YoY), and healthcare services (increase 7.16% YoY). For the full year 2024, core inflation rose by 2.71% compared to 2023, remaining below the average CPI growth rate of 3.63%.

With inflation staying below the target range of 4-4.5%, it provides the necessary conditions for the government to maintain an accommodative monetary policy throughout 2024. Against this favorable backdrop, credit growth accelerated in the last two months of the year, reaching 15.08% compared to the end of 2023. This figure surpassed the State Bank of Vietnam's (SBV) 15% target, signaling a strong rebound in credit demand.

Optimism in FDI Disbursement

Total registered FDI into Vietnam in 2024 reached nearly USD38.23 billion, marking a 3.0% decline year-on-year. However, adjusted FDI capital saw a notable surge of 50.4%.

FDI disbursement in 2024 recorded an all-time high of USD25.35 billion, up 9.4% from the previous year. Just in December, realized FDI stood at USD3.67 billion, a 75% increase from November and 25% higher than the same period in 2023. This represents the highest level of realized FDI in the past five years.

Trade Surplus Achieved for the Ninth Consecutive Year

Trade performance in 2024 showed significant recovery, with total import-export turnover reaching USD786.29 billion, an increase of 15.4% year-on-year. Trade flows to key markets and product segments remained stable. Exports to the U.S. continued to grow robustly, rising by 23.3%. However, exports to China, the second-largest market, experienced a slight contraction of 1.1% due to weak demand in the Chinese economy.

Throughout the year 2024, the trend of surplus in the trade balance continued to be reinforced, reaching USD24.77 billion.

REPORT OF THE FUND MANAGEMENT COMPANY (continued)

III. MARKET UPDATE DURING THE YEAR (continued)

1. Macroeconomics (continued)

Acceleration Needed in Public Investment Disbursement

According to the Ministry of Finance, as of 31 December 2024, the total public investment disbursement nationwide reached VND662,588.2 billion, fulfilling 82.47% of the target assigned by the Prime Minister.

The year 2025 marks the final year of the 2021-2025 medium-term public investment plan. The National Assembly has approved a capital plan of VND829.4 trillion for 2025, equivalent to 108% of the 2024 plan, demonstrating a strong commitment to vigorously driving economic growth.

Exchange Rate Pressures Intensify

As of 31 December 2024, the free market exchange rate fluctuated around VND25,850, marking a 4.3% increase since the beginning of the year. Additionally, the central exchange rate reached VND24,355, up 2.0% compared to the start of the year. Notably, the DXY index surged sharply following the U.S. President's election victory announcement, closing the year at 108.5 (the second-highest level after the 108.7 recorded in November 2022). In response, the State Bank of Vietnam intervened by selling approximately USD9.4 billion from its foreign exchange reserves. Despite the 2% increase in the exchange rate, the VND remains one of the currencies with lower depreciation compared to the KRW (South Korea) at 12.51%, PHP (Philippines) at 4.74%, and IDR (Indonesia) at 4.85%, among others.

V. MARKET OUTLOOK

The stock market enters 2025 with strong support from the following factors:

The State Bank of Vietnam continues to maintain its monetary easing policy, with deposit interest rates at banks remaining low to achieve a credit growth target of 16%.

The government's ambitious economic growth targets and the final year of the medium-term public investment plan raise expectations for accelerated economy recovery post-2024, reflecting positive recovery steps.

High expectations are placed on the potential upgrade of Vietnam's stock market in September 2025.

We have audited the accompanying financial statements of Viet Capital Balanced Fund ("the Fund"), as prepared on 20 March 2025 and set out on pages 14 to 63, which comprise the statement of financial position, statement of investment portfolio as at 31 December 2024; the income statement, the statement of changes in net asset value, transactions of fund units and the statement of cash flows for the year then ended and the notes thereto.

The Board of Management of the Fund Management Company's responsibility

The Board of Management of Viet Capital Asset Management Joint Stock Company as the Fund Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System applicable to open-ended funds and the statutory requirements relevant to the preparation and presentation of open-ended funds' financial statements, and for such internal control as the Board of Management determines is necessary to enable the preparation and presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management of the Fund Management Company, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position and investment portfolio of the Fund as at 31 December 2024, and of the results of its operations, its changes in net asset value, transactions of fund units and its cash flows for the year ended 31 December 2024 in accordance with the Vietnamese Accounting Standards, Vietnamese Accounting System applicable to open-ended funds and the statutory requirements relevant to the preparation and presentation of open-ended funds' financial statements.

Other Matter

The financial statements of the Fund for the year ended 31 December 2023 were audit by another audit firm which expressed an unmodified opinion on those financial statements on 29 March 2024.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Accounting estimates

The preparation of the financial statements is complied in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System applicable to open-ended funds and statutory requirements relevant to preparation and presentation of open-ended funds' financial statements which requires the Board of Management of the Fund Management Company make estimates and assumptions that affect the reported amounts of assets, liabilities, the disclosures of contingent assets and liabilities as at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Though these accounting estimates are based on the best knowledge of the Board of Management of the Fund Management Company, the actual results may differ.

3.2 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks for the Fund's operation, cash of fund units holders for purchasing fund units waiting for allotment, blocked deposits and term deposits at banks with an original maturity of less than three (3) months from transaction dates and short-term investments with maturity of less than three (3) months that are liquid and readily convertible into known amounts of cash, subject to an insignificant risk of change in value and used for the purpose of meeting commitments of short-term cash payment rather than investment purpose or others.

3.3 Investments

The Fund's investments include investments in listed stocks, listed bonds, unlisted bonds, deposits with terms over three (3) months and certificates of deposit.

Classification

Securities purchased under trading purpose are classified as trading securities.

Initial recognition

Investments are initially recognized at cost that includes only purchase price without any attributable transaction costs.

Purchase price of bonds, certificates of deposit and bank deposits, excluding accrued interest (clean price), are recorded in "Investments". The accrued interest not yet entitled to receive up to the acquisition date are recorded in "Accruals for interest and dividend income from investments" in the statement of financial position.

Subsequent recognition

Investments presented in "Investments" in the statement of financial position are subsequently measured based on the following principles:

- Certificates of deposit and deposits with terms over three (3) months are recorded at fair value:
- Listed, unlisted securities and other assets, are measured at fair value.

Gain or loss from investments after the date of acquisition is recognized in the income statement.

The accumulated interest receivables from deposits, transferable certificates of deposit, bonds and other debt instruments are recorded in "Receivables, accruals for interest and dividend income from investments" in the statement of financial position.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 Net asset value and net asset value per fund unit

Net asset value is the total market value of assets owned by the Fund after deducting its related liabilities (such as management fee, supervisory fee, custody fee, fund administration fee, transfer agency services fee and other payables) on the date immediately preceding the valuation day.

Net asset value per fund unit is calculated by dividing net asset value by the total number of fund units outstanding as at the latest trading day preceding the valuation day and is rounded to two (2) decimal places.

3.5 Contributed capital and capital premium

3.5.1 Contributed capital

The Fund's units with discretionary dividends are classified as contributed capital, which includes capital from subscription and capital from redemption.

Capital from subscription reflects initial and supplementary capital contribution. Based on the result of releasing eligible blocked capital contribution and the confirmation of valid capital contribution from transfer agents (for initial offering), or credit advice from the Supervisory Bank attached with a detailed list of valid proceeds from subscriptions (for subsequent offerings), the Fund Management Company recognizes capital from subscription.

Capital from redemption reflects repurchases of fund units from Fund Unit Holders. Based on confirmation of transfer agents attached with a summary of fund units redemption orders, the Fund Management Company recognizes capital from redemption.

Difference between capital from subscription and capital from redemption is contributed capital.

Capital premium includes premium of capital from subscription and premium of capital from redemption.

- Premium of capital subcription is the difference between subcription price and face value.
- Premium of capital from redemption is the difference between redemption price and face value.

3.5.2 Retained earnings

Retained earnings reflect undistributed gain/loss as at the reporting date, which includes realized profit and unrealized profit.

Realized profit is the difference between the Fund's total income and expense cumulatively incurred the year.

Unrealized profit is the difference between total gain and loss cumulatively incurred from revaluation of the Fund's investments during the year.

At the end of the period, the Fund calculates its realized and unrealized profit during the period and records them in "Undistributed profits".

3.5.3 Profit/Assets distributed to Fund Unit Holders

This account reflects the profit/assets distributed to Fund Unit Holders during the year and the transfer of distributed profit amount to "Retained earnings" at the end of the period.

The open-ended fund recognizes the profit/assets distributed to Fund Unit Holders in accordance with Fund Prospectus, Authorized Decision of the Board of Representative (in the latest period), Resolution by the General Meeting of Investors in compliance with the Fund Charter and prevailing securities laws.

23. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to market risk, credit risk and liquidity risk. The process of risk management is critical to the Fund's continuing profitability. The Fund Management Company has designed a risk control system to ensure a sufficient balance between expected cost of risk and risk management cost. The Board of Management of the Fund Management Company continuously monitors the process of risk management to ensure a sufficient balance between risk and risk control.

The Board of Management of the Fund Management Company has reviewed and decided to apply the following risk management policies for the above risks:

23.1 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises four types of risk: interest rate risk, currency risk, price risk and other price risk, such as security price risk. Financial instruments affected by market risk include deposits and securities investments.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in market's interest rate. Market risk due to interest rate fluctuation primarily relates to cash, bank deposits, certificates of deposit and corporate bonds. These assets are highly liquid in nature and the Fund holds these assets not for speculative purposes.

The Fund Management Company manages interest rate risk by looking at the competitive structure of the market to obtain rates which are favorable for its purposes within its risk management limits.

The Fund Management Company believes that interest rate risk does not have any impact on the Fund's operations. The Fund do not apply sensitive to interest analysis because investment portfolio of the Fund comprising of fixed income assets which has low-interest rate risk, and the Fund solely invests in bank deposits have a stable interest rate at the reporting date.

(ii) Currency risk

Foreign currency risk is the risk that the value of financial instruments will fluctuate because of changes in foreign exchange rates.

The Fund was incorporated and operates in Vietnam, as such, its reporting and transaction currency is denominated in VND, the Fund is not exposed to foreign currency risk as at 31 December 2024.

(iii) Price risk

The Fund's listed stockes are affected by market risks arising from the uncertainty of the future value of the investment shares. The Fund manages the risk of share prices by diversifying the investment portfolio and being cautious in selecting securities to invest within the prescibed limits.

At the reporting date, the fair value of the Fund's investments in listed stocks is VND90,308,972,700. If the market value of these shares increases or decreases by 12.11% (the rate of change in the VN-Index as of 31 December 2024 compared to 31 December 2023), with all other variables held constant, the net asset value of the Fund will correspondingly increase or decrease by VND10,936,416,594.

23. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (continued)

23.2 Credit risk

Credit risk is the risk that the counterparty participates to a financial instrument or customer contract will cause a financial loss for the Fund by failing to discharge an obligation as commitment. These credit exposures exist within financial relationships including bank deposits.

The Fund places balances of bank deposits with well-known banks. Credit risk posing to balances of bank deposits is managed by the Fund's investment management department in accordance with the Fund's policy. The Fund evaluates the concentration of credit risk in respect to bank deposits is very low.

It is the Fund's policy to enter into financial instruments with reputable counterparties. The Investment management Department closely monitors the creditworthiness of the Fund's counterparties by reviewing their financial health, credit worthiness, financial statements and press releases on a regular basis.

23.3 Liquidity risk

The liquidity risk is the risk that the Fund will encounter difficulty in meeting financial obligations due to shortage of capital. The Fund's exposure to liquidity risk arises primarily from mismatches of maturities of financial assets and financial liabilities.

The Fund invests primarily in securities market and other financial instruments, which are under normal market conditions, are easily convertible to cash. The Fund monitors liquidity risk by maintaining sufficient amount of cash and cash equivalents for the Fund's operation and to mitigate the effect of fluctuations in cash flows.

The fair values of the financial assets and liabilities represent the amounts at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced sales or liquidation.

The following methods and assumptions are being used to estimate the fair values:

- Fair values of cash and cash equivalents, receivables, payables to Distributors, accrued payables, payables of subscription to the fund unit holders, payables to fund management services, other payables were equal to their book values due mainly to the short-term maturities of these instruments.
- Fair value of investments are re-valued using the valuation method stated in Note 3.3.
